electric, inc.

Schamber Electric can offer a full service solution to any single family residential need you might have. We have worked on major condominium projects with the greatest amount of success.

## SERVICE

With over 20 years of new construction experience Chamber is knowledgeable in the needs of the production builder. It is through experience, progressiveness, and prudent strength that we continue to be a key resource for the best builders in Southern California. Our operation is sensitive to the needs of our clients ensuring a cost effective approach that includes:

- Extensive pre-project planning and value engineering
- Cost conscience sourcing and material options
- Award winning safety program and proper insurance
- Hourly foreman providing attention to detail supervision
- A fully staffed customer service department

Winner of the 2013 Golden Gate Award for Safety
